Condensate Systems

Modular Systems & Solutions

SMART IN FLOW CONTROL

SAMSON: YOUR PARTNER FOR CONDENSATE SYSTEMS

- Individual consulting and customer support
- Customized solutions
- Standard solutions
- Extensive expertise in design engineering and manufacturing
- Instrumentation and controls to meet highest requirements
- Compact turnkey systems for quick and simple installation
- Global sales and service network
- Commonly used standards, regulations and certificates (ATEX, SIL, PED, ASME, IBR etc.)
- Certification for chemical applications

CONDENSATE DRAINAGE

- Steam pressure control units in the condensate circuit
- Condensate drain units for steam heat exchangers
- Pipeline drains installed upstream of SAMSON pressure control valves
- Designed to comply with chemical and general industry standards
- Stainless steel, spheroidal graphite iron, cast steel or cast iron
- Special units and customized solutions on request

CONDENSATE COLLECTION

- Standard or customized condensate vessels
- Standard or customized condensate return systems
- Suitable for industrial applications
- Optionally with or without instrumentation and controls
- Optionally with insulation
- Carbon steel or stainless steel
- Standard version includes sizes between DN 50 and 200, PN 40, 300 °C
- Special units and customized solutions on request

WASTE STEAM UTILIZATION

- Customized engineering for heat recovery
- Waste steam condensers to generate hot water
- Waste steam condensers to generate medium-pressure steam from high-pressure steam
- Suitable for industrial applications
- Delivered as ready-to-install, insulated turnkey unit
- Packages for on-site implementation
- Carbon steel or stainless steel
- Special units and customized solutions on request
