

MANUFACTURERS DECLARATION

relating to the directive 2014/34/EU

■ General

Device: Lined and not lined valves
Manufacturer: **Pfeiffer Chemie-Armaturenbau GmbH**
Address: Hooge Weg 41
47906 Kempen, Germany

■ Interpretation of declaration to the directive 2014/34/EU

Pfeiffer valves have no own potential ignition source after testing the hazardous ignition in acc. to EN ISO 80079-36. Therefore, Pfeiffer valves do not come under the directive 2014/34/EU.

Relating to this directive a CE-marking is not permissible. The valve could be incorporated into potential compensation of plants independent of the directive, valid for metallic parts in hazardous areas.

Valves with Teflon lining (PFA, PTFE) in application with rechargeable media, have to be lined with conductive Teflon lining, surface resistance less 1 Gigaohm (10^9 Ohm), in acc. to EN ISO 80079-36.
